

Geo Shapes

Procedures:

- Take out a geo board and some geo bands.
- Practice making the four geometric shapes (rectangle, square, triangle, and a circle on the back).
- Create a square by combining two equal triangles.
- Create a square by combining two rectangles.
- Create a rectangle by combining two squares.
- Create a rectangle by combining two triangles.
- Using the Geo Shapes worksheet 7-26 connect the dots on the arrays to create the shapes you have made on the geo boards.
